Canopy Wind

Canopy Weather factors in essential, overlooked variables to create triangulated, application-first datasets. They use these triangulated datasets to provide highly accurate hail, tornado and wind models to use in real-world business applications.

Coverage area & data available
• United States

Update frequency
• Hourly checks for updates with a final daily check at 1700 UTC.

Columns
We enhance your data with columns you can filter by & export:

• Wind Speed

When you download your enhanced data, look for the columns that start with the "Provider Name", then the "Peril Name", and ending with the "Date/Time". For example, "Canopy Wind 2024-08-06 13:17 (UTC)".
