

## Census

This data is extracted from the US Census TIGER/Line files which are released 2-4 months after each decennial (10 yr.) Census is complete. We also provide annual releases when there is a significant change to the base boundary files between Census years.

Census blocks are the basis for creation of all other census data we make available to our customers. Blocks are defined statistical areas bounded on all sides by visible features (e.g., streets, roads, streams, etc.) and by non-visible boundaries (e.g., city or county limits).

### Coverage Area

- United States, Puerto Rico, and the Island Areas.

### Reports Available

- Census Boundaries
- Census Block
- City Name
- County Name

### Report Details

We enhance your data with attributes you can view, filter by and export:

#### Census Boundaries

- Overall Rank
- Place
- County
- State
- Tract
- Block Group
- Block
- State FIPS
- County FIPS
- Place FIPS
- Tract GEOID
- Block Group GEOID
- Block GEOID

#### Census Block

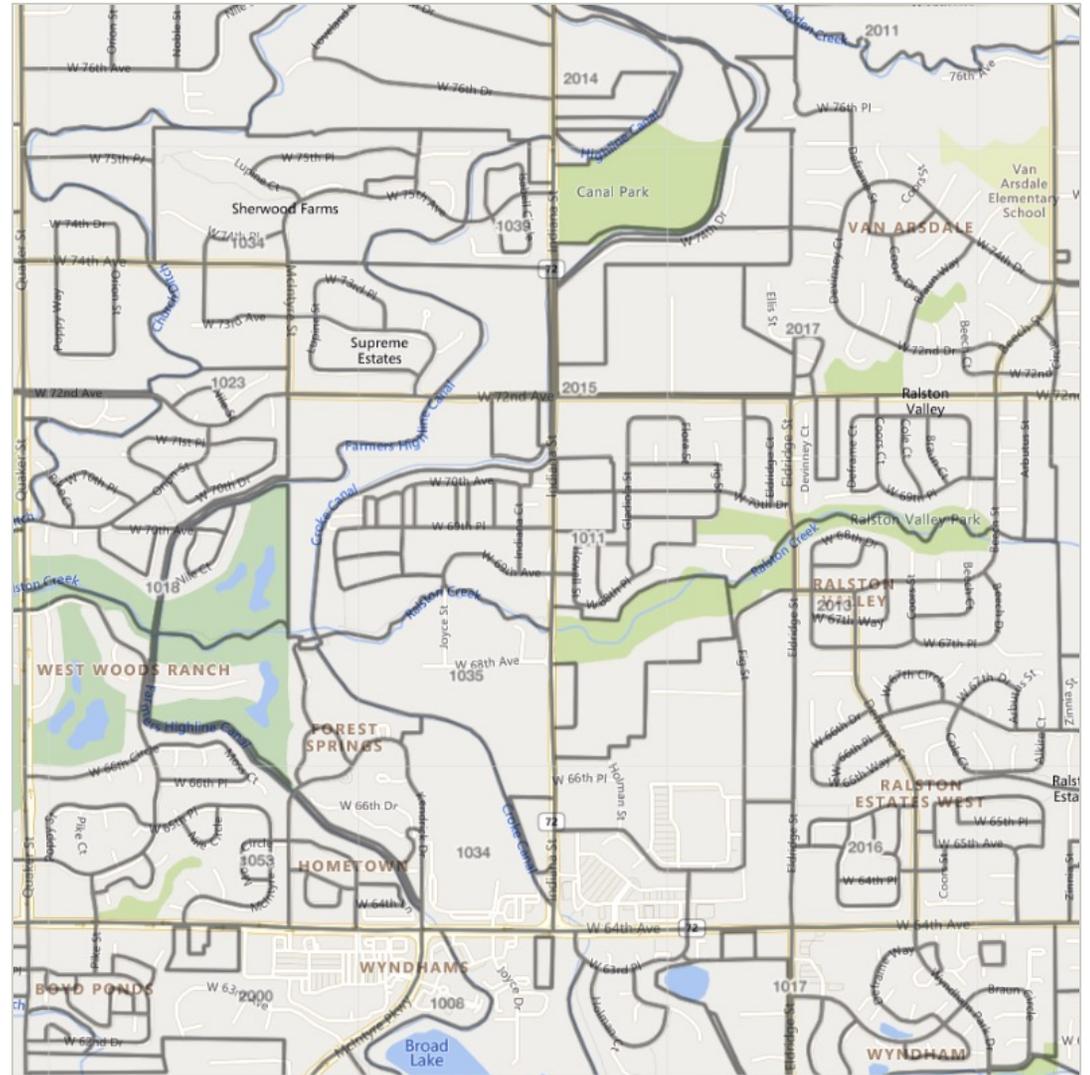

- Block Geoid

#### City Name

- City Name

#### County Name

- County Name
