Crime

Using advanced statistical methodologies and a rolling seven-year database of FBI and local agency statistics, Applied Geographic Solutions (AGS) provides a highly accurate view of the relative risk of specific crime types for any geographic area including Census blocks. It is not a database of crime occurrence, but rather, the relative risk of any location compared to the United States in entirety.

Coverage Area
• United States (Includes DC but not Guam, N. Mariana Islands, Puerto Rico or USVI)

Report Details
We enhance your data with attributes you can view, filter by and export:
