

Hail History & Verification

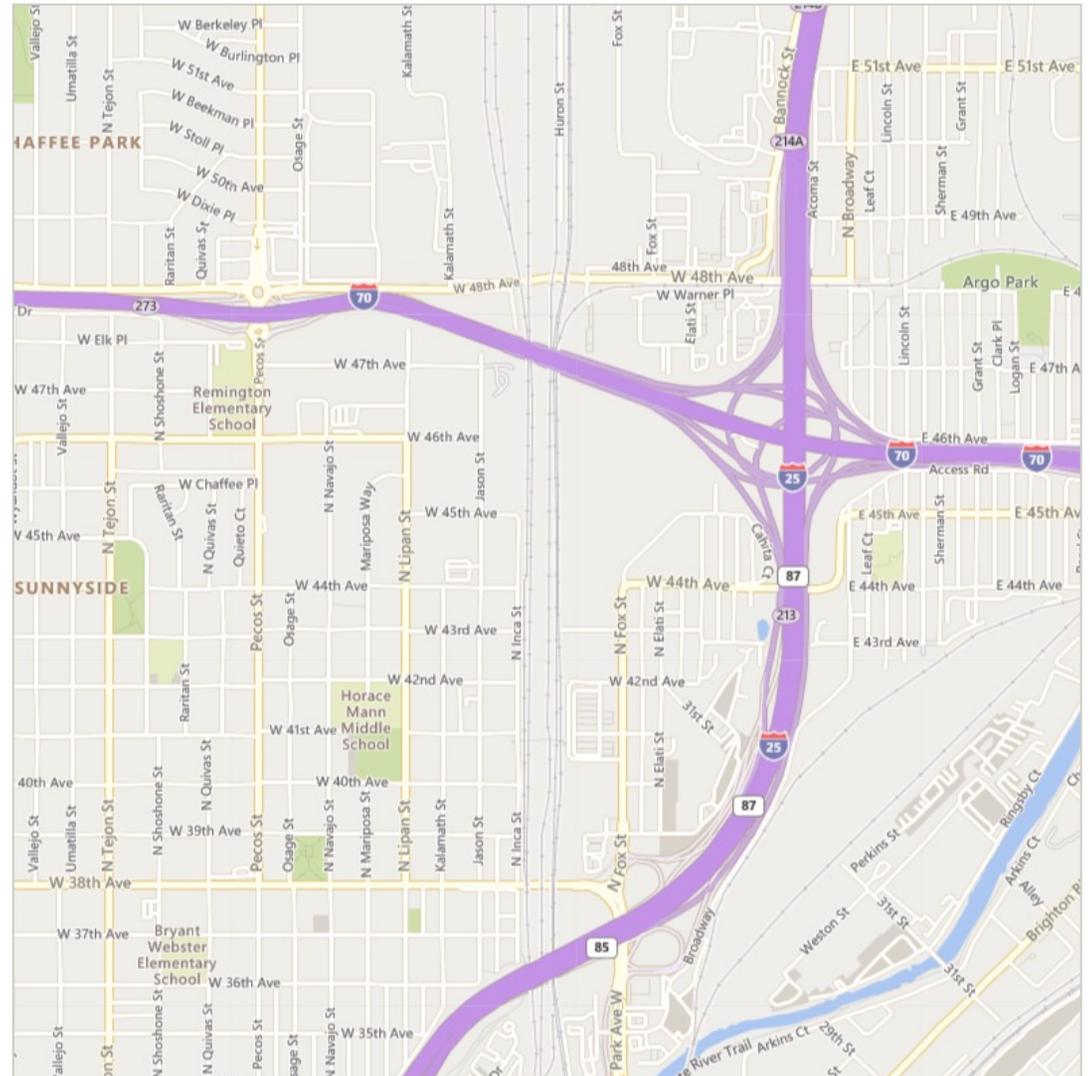

The WeatherGuidance Forensics Unit provides hail history reports for any location in the U.S. based on the examination of ground-based storm reports and/or radar indicated hail detection algorithms. Each report is provided in PDF format and is specific to a street address or latitude/longitude point.

Coverage Area

- United States

PDF Reports Available

- 12 month
- 2 year
- 5 year
- 5 year with buffer

Note: This report has no visual hazard layer
